YEAR ENDED DECEMBER 31, 2016

SALES FOR RESALE (Acccount 447)

- Report sales during year to other electric utilities and to cities or other public authorities for distribution to ultimate consumers.
- Provide subheadings and classify sales as to

 (1) Associated Utilities, (2) Nonassociated Utilities, (3) Municipalities, (4) R.E.A. Cooperatives, and (5) other public authorities. For each sale designate statistical classification in column (b), thus: firm power, FP; dump or surplus power, DP; other G,

and place an "x" in column (c) if sale involves export across a state line.

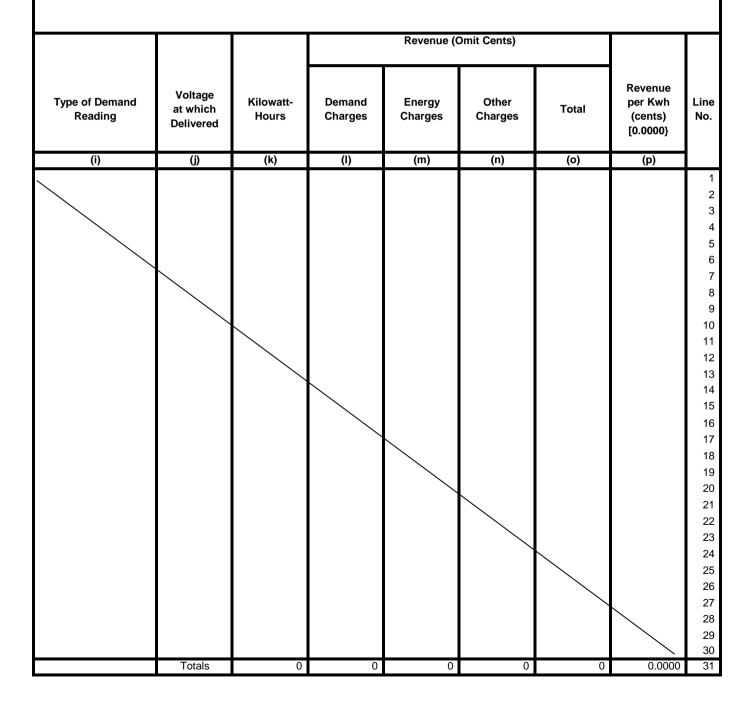

- 3. Report separately firm, dump, and other power sold to the same utility. Describe the nature of any sales classified as other power, column (b).
- If delivery is made at a substation indicate ownership in column (e), thus: respondent owned or leased, RS; customer owned or leased, CS.

YEAR ENDED DECEMBER 31, 2016

SALES FOR RESALE (Account 447) (Continued)

- 5 If a fixed number of kilowatts of maximum demand is specified in the power contract as a basis of billings to the customer this number should be shown in column (f).. The number of kilowatts of maximum demand to be shown in column (g) and (h) should be actual based on monthly readings and should be furnished whether or not used in the determination of demand charges. Show in column (i) type of demand reading (instantaneous, 15, 30, or 60 minutes integrated).
- 6. The number of Kilowatt-hours sold should be the quantities shown by the bills rendered to the purchasers.
- 7. Explain any amounts entered in column (n) such as fuel or other adjustments.
- If a contract covers several points of delivery and small amounts of electric energy are delivered at each point, such sale may be grouped.

54 YEAR ENDED DECEMBER 31, 2016

PURCHASED POWER (Account 555)

- Report power purchased for resale during the year.
 Exclude from this schedule and report on page 56 particulars concerning interchange power transactions during the year.
- Provide subheadings and classify sales as to

 (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A. Cooperatives, and (7) Other Public

Authorities. For each purchase designate statistical classfication in column (b), thus: firm power, FP; dump or surplus power DP; other, O, and place an "X" in column (c) if purchase involves import across a state line.

3. Report separately firm, dump, amd othe power purchased from the same company. Describe the nature of any purchases classified as Other Power, column (b).

INTERCHANGE POWER (Included in Account 555)

- Report below the Kilowatt-hours received and delivered during the year and the net charge or credit under interchange power agreements.
- Provide subheadings and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilies, (5) Municipalities, (6) R.E.A., Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "X" in column (b).
- 3. Particulars of settlements for interchange power

shall be furnished in Part B, Details of Settlement for Interchange Power. If settlement for any transaction also includes credit or debit amounts other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amounts were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling, coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transaction does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amounts and accounts in which such other amounts are included for the year.

EXTRACTS FROM CHAPTER 164 OF THE GENERAL LAWS AS AMENDED

Section 56. The mayor of a city, or the selectmen or municipal light board, if any, of a town acquiring a gas or electric plant shall appoint a manager of municipal lighting who shall, under the direction and control of the mayor, selectmen or municipal light board, if any, and subject to this chapter, have full charge of the operation and management of the plant, the manufacture and distribution of gas or electricity, the purchase of supplies, the employment of attorneys and of agents and servants, the method, time, price, quantity and quality of the supply, the collection of bills, and the keeping of accounts. His compensation and term of office shall be fixed in cities by the city council and in towns by the selectmen or municipal light board, if any; and, before entering upon the performance of his official duties, he shall give bond to the city or town for the faithful performance thereof in a sum and form and with sureties to the satisfaction of the mayor, selectmen or municipal light board, if any, and shall, at the end of each municipal year, render to them such detailed statement of his doings and of the business and financial matters in his charge as the department may prescribe. All moneys payable to or received by the city, town, manager or municipal light board in connection with the operation of the plant, for the sale of gas or electricity or otherwise, shall be paid to the city or town treasurer. All accounts rendered to or kept in the gas or electric plant of any city shall be subject to the inspection of the city auditor or officer having similar duties, and in towns they shall be subject to the inspection of the selectmen. The auditor or officer having similar duties, or the selectmen, may require any person presenting for settlement an account or claim against such plant to make oath before him or them, in such form as he or they may prescribe, as to the accuracy of such account or claim. The willful making of a false oath shall be punishable as perjury. The auditor or officer having similar duties in cities, and the selectmen in towns, shall approve the payment of all bills or payrolls of such plants before they are paid by the treasurer, and may disallow and refuse to approve for payment, in whole or in part, any claim as fraudulent, unlawful or excessive; and in that case the auditor or officer having similar duties, or the selectmen, shall file with the city or town treasurer a written statement of the reasons for the refusal; and the treasurer shall not pay any claim or bill so disallowed. This section shall not abridge the powers conferred on town accountants by sections fifty-five to sixty-one, inclusive, of chapter forty-one. The manager shall at any time, when required by the mayor, selectmen, municipal light board, if any, or department, make a statement to such officers of his doings, business, receipts, disbursements, balances, and of the indebtedness of the town in his department.

Section 57. At the beginning of each fiscal year, the manager of municipal lighting shall furnish to the mayor, selectmen or municipal light board, if any, an estimate of the income from sales of gas and electricity to private consumers during the ensuing fiscal year, and of the expense of the plant during said year, meaning the gross expenses of operation, maintenance and repair, the interest on the bonds, notes or certificates of indebtedness issued to pay for the plant, an amount for depreciation equal to three per cent of the cost of the plant exclusive of land and any water power appurtenant thereto, or such smaller or larger amount as the department may approve, the requirements of the sinking fund or debt incurred for the plant, and the loss, if any, in the operation of the plant during the preceding year, and of the cost, as defined in section fifty-eight, of the gas and electricity to be used by the town. The town shall include in its annual appropriations and in the tax levy not less than the estimated cost of the gas and electricity to be used by the town as above defined and estimated. By cost of the plant is intended the total amount expended on the plant to the beginning of the fiscal year for the purpose of establishing, purchasing, extending or enlarging the same. By loss in operation is intended the difference between the actual income from private consumers plus the appropriations for maintenance for the preceding fiscal year and the actual expense of the plant, reckoned as above, for that year in case such expenses exceeded the amount of such income and appropriation. The income from sales and the money appropriated as aforesaid shall be used to pay the annual expense of the plant, defined as above, for the fiscal year, except that no part of the sum therein included for depreciation shall be used for any other purpose than renewals in excess of ordinary repairs, extensions, reconstruction, enlargements and additions. The surplus, if any, of said annual allowances for depreciation after making the above payments shall be kept as a separate fund and used for renewals other than ordinary repairs, extensions, reconstructions, enlargements and additions in succeeding years, and for the cost of plant, nuclear decommissioning costs, the costs of contractual commitments, and deferred costs related to such commitments which the city council, the board of selectmen, or the municipal light board, if any, determines are above market value. Said depreciation fund shall be kept and managed by the town treasurer as a separate fund, subject to appropriation by the city council or selectmen or municipal light board, if any, for the foregoing purpose. Upon his own initiative or upon the request of the city council, selectmen or municipal light board, the treasurer shall invest or deposit the same as permitted by section fifty-five A of chapter forty-four, and any income thereon shall be credited to the depreciation fund. So much of said fund as the department may from time to time approve may also be used to pay notes, bonds or certificates of indebtedness issued to pay for the cost of reconstruction or renewals in excess of ordinary repairs, when such notes, bonds or certificates of indebtedness become due. All appropriations for the plant shall be either for the annual expense defined as above, or for extensions, reconstruction, enlargements or additions; and no appropriation shall be used for any purpose other than that stated in the vote making the same. No bonds, notes or certificates of indebtedness shall be issued by a town for the annual expenses as defined in this section.

Section 63. A town manufacturing or selling gas or electricity for lighting shall keep records of its work and doings at its manufacturing station, and in respect to its distributing plant, as may be required by the department. It shall install and maintain apparatus, satisfactory to the department, for the measurement and recording of the output of gas and electricity, and shall sell the same by meter to private consumers when required by the department, and, if required by it, shall measure all gas or electricity consumed by the town. The books, accounts and returns shall be made and kept in a form prescribed by the department, and the accounts shall be closed annually on the last day of the fiscal year of such town, and a balance sheet of that date shall be taken therefrom and included in the return to the department. The mayor, selectmen or municipal light board and manager shall, at any time, on request, submit said books and accounts to the inspection of the department and furnish any statement or information required by it relative to the condition, management and operation of said business. The department shall, in its annual report, describe the operation of the several municipal plants with such detail as may be necessary to disclose the financial condition and results of each plant; and shall state what towns, if any, operating a plant have failed to comply with this chapter, and what towns, if any, are selling gas or electricity with the approval of the department at less than cost. The mayor, or selectmen, or municipal light board, if any, shall annually, on or before such date as the department fixes, make a return to the department, for the preceding fiscal year, signed and sworn to by the mayor, or by a majority of the selectmen or municipal light board, if any, and by the manager, stating the financial condition of said business, the amount of authorized and existing indebtedness, a statement of income and expenses in such detail as the department may require, and a list of its salaried officers and the salary paid to each. The mayor, the selectmen or the municipal light board may direct any additional returns to be made at such time and in such detail as he or they may order. Any officer of a town manufacturing or selling gas or electricity for lighting who, being required by this section to make an annual return to the department, neglects to make such annual return shall, for the first fifteen days or portion thereof during which such neglect continues, forfeit five dollars a day; for the second fifteen days or any portion thereof, ten dollars a day; and for each day thereafter not more than fifteen dollars a day. Any such officer who unreasonably refuses or neglects to make such return shall, in addition thereto, forfeit not more than five hundred dollars. If a return is defective or appears to be erroneous, the department shall notify the officer to amend it within fifteen days. Any such officer who neglects to amend said return within the time specified, when notified to do so, shall forfeit fifteen dollars for each day during which such neglect continues. All forfeitures incurred under this section may be recovered by an information in equity brought in the supreme judicial court by the attorney general, at the relation of the department, and when so recovered shall be paid to the commonwealth.

Section 69. The supreme judicial court for the county where the town is situated shall have jurisdiction on petition of the department or of twenty taxable inhabitants of the town to compel the fixing of prices by the town in compliance with sections fifty-seven and fifty-eight, to prevent any town from purchasing, operating or selling a gas or electric plant in violation of any provision of this chapter, and generally to enforce compliance with the terms and provisions thereof relative to the manufacture or distribution of gas or electricity by a town.

MASSACHUSETTS MUNICIPAL WHOLESALE ELECTRIC COMPANY Suggested Note to Participant Financial Statements December 31, 2016

Town [City] of South Hadley acting through its Light Department is a Participant in certain Projects of the Massachusetts Municipal Wholesale Electric Company (MMWEC).

MMWEC is a public corporation and a political subdivision of the Commonwealth of Massachusetts, created as a means to develop a bulk power supply for its Members and other utilities. MMWEC is authorized to construct, own or purchase ownership interests in, and to issue revenue bonds to finance, electric facilities (Projects). MMWEC has acquired ownership interests in electric facilities operated by other entities and also owns and operates its own electric facilities. MMWEC sells all of the capability (Project Capability) of each of its Projects to its Members and other utilities (Project Participants) under Power Sales Agreements (PSAs). Among other things, the PSAs require each Project Participant to pay its *pro rata* share of MMWEC's costs related to the Project, which costs include debt service on the revenue bonds issued by MMWEC to finance the Project, plus 10% of MMWEC's debt service to be paid into a Reserve and Contingency Fund. In addition, should a Project Participant fail to make any payment when due, other Project Participant's share of that Project's Project's Project Capability to an additional amount not to exceed 25% of their original Participant's share of that Project's Project's Project Capability. Project Participants have covenanted to fix, revise and collect rates at least sufficient to meet their obligations under the PSAs.

MMWEC has issued separate issues of revenue bonds for each of its eight Projects, which are payable solely from, and secured solely by, the revenues derived from the Project to which the bonds relate, plus available funds pledged under MMWEC's Amended and Restated General Bond Resolution (GBR) with respect to the bonds of that Project. The MMWEC revenues derived from each Project are used solely to provide for the payment of the bonds of any bond issue relating to such Project and to pay MMWEC's cost of owning and operating such Project and are not used to provide for the payment of the bonds of any bond issue relating to any other Project.

MMWEC operates the Stony Brook Intermediate Project and the Stony Brook Peaking Project, both fossil-fueled power plants. MMWEC has a 3.7% interest in the W.F. Wyman Unit No. 4 plant, which is operated and owned by its majority owner, FPL Energy Wyman IV, LLC, a subsidiary of NextEra Energy Resources LLC, and a 4.8% ownership interest in the Millstone Unit 3 nuclear unit, operated by Dominion Nuclear Connecticut, Inc. (DNCI), the majority owner and an indirect subsidiary of Dominion Resources, Inc. DNCI also owns and operates the Millstone Unit 2 nuclear unit. The operating license for the Millstone Unit 3 nuclear unit extends to November 25, 2045.

A substantial portion of MMWEC's plant investment and financing program is an 11.6% ownership interest in the Seabrook Station nuclear generating unit operated by NextEra Energy Seabrook, LLC (NextEra Seabrook) the majority owner and an indirect subsidiary of NextEra Energy Resources LLC. The operating license for Seabrook Station extends to March 15, 2030. NextEra Seabrook has submitted an application to extend the Seabrook Station operating license for an additional 20 years.

Pursuant to the PSAs, the MMWEC Seabrook and Millstone Project Participants are liable for their proportionate share of the costs associated with decommissioning the plants, which costs are being funded through monthly Project billings. Also, the Project Participants are liable for their proportionate share of the uninsured costs of a nuclear incident that might be imposed under the Price-Anderson Act (Act). Originally enacted in 1957, the Act has been renewed several times. In July 2005, as part of the Energy Policy Act of 2005, Congress extended the Act until the end of 2025.

South Hadley Electric Light Department has entered into PSAs and PPAs with MMWEC. Under both the PSAs and PPAs, the Department is required to make certain payments to MMWEC payable solely from Municipal Light Department revenues. Under the PSAs, each Participant is unconditionally obligated to make payments due to MMWEC whether or not the Project(s) is completed or operating and notwithstanding the suspension or interruption of the output of the Project(s).

MMWEC is involved in various legal actions. In the opinion of management, the outcome of such litigation or claims will not have a material adverse effect on the financial position of the company.

As of December 31, 2016,, total capital expenditures amounted to \$1,636,374,000, of which \$55,197,000 represents the amount associated with the Department's Project Capability. MMWEC's debt outstanding for the Projects from Power Supply System Revenue Bonds totals \$55,795,000, of which \$1,860,000 is associated with the Department's share of Project Capability. As of December 31, 2016,, MMWEC's total future debt service requirement on outstanding bonds issued for the Projects is \$59,281,000, of which \$1,968,000 is anticipated to be billed to the Department in the future.

The aggregate amount of South Hadley Electric Light Department's required payments under the PSAs and PPAs, exclusive of the Reserve and Contingency Fund billings, to MMWEC at December 31, 2016 and estimated for future years is shown below.

For years ended December 31,	ANNUAL COSTS		
Tor years ended December 51,	2017 \$ 2018 2019	1,360,000 606,000 0	
	TOTAL \$	1,966,000	

In addition, under the PSAs, the Department is required to pay to MMWEC its share of the Operation and Maintenance (O&M) costs of the Projects in which it participates. The Department's total O&M costs including debt service under the PSAs were \$6,327,000 and \$7,140,000 for the years ended December 31, 2016 and 2015, respectively.

AS OF DECEMBER 31, 2016

TERMS AND CONDITIONS FOR ELECTRIC SERVICE

THE FOLLOWING TERMS AND CONDITIONS ARE APPLICABLE TO AND MADE PART OF ALL RATE SCHEDULES. ANY SUCH TERMS AND CONDITIONS AS ARE INCONSISTENT WITH ANY SPECIFIC PROVISIONS OR ANY RATE SCHEDULE SHALL NOT APPLY THERETO.

- 1. The supply of electric service is contingent upon the Department's ability to secure and retain the necessary location for its poles, wires, conduit, cable and other apparatus. The character of service, to be made available at each location, will be determined by the Department and information relative thereto will be furnished by the Department on request. In general, the standard voltage supplied will be One Hundred Twenty Two Hundred Forty (120/240) volts, single phase. Contact the Department to determine the availability of other voltages and characteristics.
- 2. Such wiring and other electrical equipment and apparatus as may be necessary in order to utilize the service shall be provided, installed, maintained, and used by the Customer in accordance with the requirements, if any, of the National Electric Code, and of all public authorities having jurisdiction of the same and the requirements of the Department. In general, the Department will not provide service until the Customer's wiring has been inspected and approved for energization by the Authority having Jurisdiction. The Department's *Information and Requirements for Electric Service* will be furnished upon request.
- 3. In general, all customers shall be served from one service location and one meter. Apartment buildings shall be served through one service, one building service meter, and individual meter(s) for each occupancy. In the case of more than one building in an apartment complex, each building service meter shall be considered an individual and separate account and will be billed separately.
- 4. All bills shall be due and payable upon presentation and shall be rendered monthly; however, the Department reserves the right to read meters and render bills on a bi-monthly basis. All bills of non-residential accounts, not paid within 45 days from the date of billing, shall bear interest at 1.5% per month on the unpaid balance from the date thereof until the date of payment.
- 5. The Department may discontinue its supply and remove its property from the premises in case the Customer fails to pay any bill due the Department for such service, after due notice thereof to the Customer, or fails to maintain his service equipment in a safe manner, or to perform any of his obligations to the Department. After such discontinuance, a reconnection fee will be charged to the Customer by the Department for restoration of service.

- 6. For the purpose of determining the amount of electricity delivered, meters shall be installed by the Department at locations to be designated by the Department. The Department, may at any time, change any of its meters.
- 7. The Customer shall furnish without charge, suitable locations and enclosures upon his premises for such lines, transformers, meters, and other apparatus and equipment as the Department may install for the purpose of supplying service. The Department shall have the right of access, at reasonable times, to the premises of the Customer for the purpose of installing, reading, inspecting, testing, and keeping in repair the apparatus and equipment of the Department, or for discontinuing service or for removing any or all of its apparatus and equipment or for the purpose of obtaining the necessary information for the proper application of the rate or rates under which service is supplied.
- 8. The Customer shall not injure, interfere, destroy or tamper with the meter or other property of the Department nor suffer or permit any person to do so. The Customer shall use all reasonable precautions to protect the property of the Department located on the premises of the Customer from damage and interference and shall be responsible for all damages to, or loss of, such property of the Department. The Customer shall so maintain and operate its electric equipment and apparatus as not to endanger or interfere with the service of the Department. Electric meters are the property of the Department. No one but authorized Department personnel shall cut and open the Department seal on a meter, remove and install a meter, install jumper pieces or other bypassing devices, remove or install sleeves, change the meter registration, or tamper in any way with the electric meter. Meters damaged accidentally or otherwise will be replaced at the expense of the property owner where the meter is located. When a meter is found to be tampered with, service to that meter will be disconnected. To have service restored, the responsible party must first pay a \$45.00 reconnection fee, payable in cash at the Department Office. All violations will be reported to the Police Department for legal prosecution. To restore service after it has been disconnected, application must be made in person at the Department's Office. In addition to the fee for tampering, a deposit will be required, which will be equivalent to three month's normal consumption on the premises in question. Service will be reconnected 24 hours after payment of the preceding fee and deposit, if the matter has been resolved to the satisfaction of the Department.
- 9. Whenever the integrity of the supply of electric service may be threatened by the conditions on the Department's system or on a part or parts of the transmission and/or distribution system with which the Department is interconnected, the Department, in its sole judgment, may curtail or interrupt electrical service to the Customer and such curtailment or interruption shall not constitute willful default by the Department. The Department shall not be responsible for any failure to supply electric service nor interruption or abnormal voltage of the supply, or any damage resulting from the restoration of service, if such failure, interruption, abnormal voltage, or damage is without willful default on its part.

DATE ISSUED:

- 10. The Department shall not be liable for damage to the person or property of the Customer or any other person resulting from the use of electricity or the presence of the Department's apparatus and equipment on the Customer's premises.
- 11. Whenever the estimated expenditures for providing service, including but not limited to lines, apparatus and equipment, to properly supply electric service to the Customer shall exceed the projected annual revenue to be derived from said new service then, and in that event, the South Hadley Electric Light Department shall require the Customer to pay for said expenditures by either of the following methods, at the discretion of the Department:
 - 1. Lump sum payment at completion of installation work reimbursing the Department for said expenditures,
 - 2. Expenditures paid by Customer over a one-year period in twelve (12) equal monthly installments,
 - 3. Other methods at discretion of the Department

Said payments shall be in addition to any payments for electricity at applicable rates.

- 12. The Department shall not be required to furnish electricity as a stand-by or to supplement electricity for a Customer's source of electricity supply other than hydro-generation.
- 13. No three-phase electric service shall be supplied by the Department unless electric load plans by a Registered Professional Engineer are submitted to the South Hadley Light Department and Wire Inspector and approved by said Electric Department.
- 14. In the case of three-phase service, where the building owner wishes the Department to supply a padmounted transformer with underground primary supply, the owner or contractor shall provide and install the foundation for the transformer and a concrete enclosed duct bank to the Department specifications with handholes if required for pulling and connections, all secondary voltage service cables and terminal fittings, meter troughs for self-contained meters, all as required by the Department, all permits and notices required by law for trenching; and will reimburse the Department for all costs in excess of its standard average installed costs for aerial service and pole-mounted transformers. The Department shall purchase and install (with Customer assistance if required) the padmounted transformer, underground primary cable and its termination, the meter(s) and instrument transformers, test switches and meter cabinets where required, primary voltage lightning arresters at riser pole, additional poles if required all of which, except the first on private property, shall be reimbursed to the Department by the contractor.
- 15. Temporary service connections for new building construction purposes will be subject to a service charge covering the actual cost of installation and removal. Service supplied will be billed under the <u>Temporary General Service Schedule T-1</u>. Utility-type construction

DATE ISSUED:

M.D.T.E. No. 80 Cancels M.D.P.U. No. 72 Page 4 of 4

and wiring will not be supplied by the Department for fairs, carnivals, and other private property work.

- 16. The South Hadley Electric Light Department shall not be liable for, or in any way in respect of, any interruption, abnormal voltage, discontinuance or reversal of its service, due to causes beyond its immediate control whether by accident, labor difficulties, conditions of fuel supply, the attitude of any public authority, reduction in voltage, rotating of its feeders, selected blackouts, or failure to receive any electricity for which in any manner it has contracted, or due to the operation in accordance with good utility practice of any emergency bad reduction program by the South Hadley Electric Light Department or one with whom it has contracted for the supply of electricity or inability for any good reason to maintain uninterrupted and continuous service; provided, however, that if the South Hadley Electric Light Department is unable for any of the causes enumerated above to supply electricity for a continued period of two (2) days or more, then upon request of the Customer, the demand charge, if any, shall be pro-rated for the number of days of such inability as it relates to the number of days in the billing month.
- 17. The South Hadley Electric Light Department reserves the right to withhold and/or remove electric service to loads, which adversely affect the supply to other customers. Loads that produce harmonic distortion, voltage fluctuations, noise or low power factor, are examples of loads that are potentially detrimental.
- 18. The Customer shall, at all times, take and use energy in such a manner that the load will be balanced between phases to within 10%. The Department reserves the right to require the Customer to make necessary changes at his expense to correct the unbalanced condition.
- 19. All such policies and regulations shall be consistent with the General Laws of the Commonwealth of Massachusetts, Chapter 164 in particular, and other applicable regulations and orders of the Massachusetts Department of Telecommunications and Energy.

DATE ISSUED:

RESIDENTIAL SERVICE SCHEDULE R1

1. AVAILABLE:

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to single and multiple occupancy residential customers; including individual homes, apartments, and residential occupancies. This rate will include the customer's entire requirement of electricity as measured by one meter.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Single Phase - 120, 208, 240 Volts

4. **BASE RATE (Applied Monthly):**

Delivery Services		
Customer Charge	\$2.90	per month
Distribution Charge	\$0.02990	per kWh
Transmission Charge	\$0.00720	per kWh
Transition Charge	\$0.04020	per kWh
Supplier Services		
Generation Charge	\$0.05400	per kWh
Transition Adjustment Charge		per kWh
NYPA Hydropower Credit		per kWh

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

6. NYPA HYDROPOWER CREDIT

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the NYPA Hydropower Credit M.D.T.E. No. 89 in effect at time of billing.

M.D.T.E. No. 83 Cancels M.D.P.U. No. 73 Page 2 of 2

7. MINIMUM CHARGE:

The Minimum Charge under this schedule is the Customer Charge plus the following charge, if applicable.

A charge of 1.00 per installed kVA transformer capacity per billing period shall be made for each kVA in excess of 5 kVA that is required by the customer. At the option of the Department, a demand type meter may be employed to measure this requirement.

8. **TERMS OF PAYMENT:**

Bills calculated and issued under this schedule shall be considered due when presented. The bill calculated will be subject to a 10% discount on the <u>Delivery Services</u> for payment prior to the expiration of the Discount Period, which shall extend 14 Calendar days from Date of Billing. The discount is not applicable to <u>Supplier Services</u> or to the Transition Adjustment Charge. The Minimum Charge, as defined under this schedule, shall be applicable at all times.

9. **SPECIAL CONDITIONS:**

The Department's *Terms and Conditions for Electric Service* currently in effect are a part of this rate schedule, where not inconsistent with any specific provisions thereof.

SMALL GENERAL SERVICE SCHEDULE GC1

1. AVAILABLE:

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to the entire service requirement for electricity at a single metering location of any customer subject to the provisions of this section. Service under this rate schedule is available for any purpose, including commercial, municipal, and educational applications, having a monthly usage of less than 10,000 kWh and demand of less than 200 kW.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Single Phase – 120, 208, 240 Volts or Three Phase – 208, 480 Volts

4. **BASE RATE (Applied Monthly):**

Delivery Services		
Customer Charge	\$7.00	per month
Distribution Charge	\$0.01867	per kWh
Transmission Charge	\$0.00410	per kWh
Transition Charge	\$0.05200	per kWh
Supplier Services		
Generation Charge	\$0.05400	per kWh
Transition Adjustment Charge		per kWh

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

6. **MINIMUM CHARGE:**

The minimum charge under this schedule is the Customer Charge.

7. **DETERMINATION OF DEMAND:**

The demand shall be determined by suitable instruments and shall be the highest 15 minute peak occurring during the month as measured in kilowatts.

DATE ISSUED:

M.D.T.E. No. 86 Cancels M.D.P.U. No. 76 Page 2 of 2

8. **TERMS OF PAYMENT:**

Bills calculated and issued under this schedule shall be considered due when presented. All bills, not paid within 45 days from the date of billing, shall bear interest at 1.5% per month on the unpaid balance from the date thereof until the date of payment.

9. **SPECIAL CONDITIONS:**

The Department's *Terms and Conditions for Electric Service* currently in effect area a part of this rate schedule, where not inconsistent with any specific provision thereof.

DATE ISSUED:

LARGE GENERAL SERVICE SCHEDULE LGS

1. **AVAILABLE:**

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to the entire service requirement for electricity at a single metering location of any customer subject to the provisions of this section. A customer will be served under this rate if the customer's average monthly billing demand exceeds 200 kW. A customer may be transferred from this rate if the customer's 12-month average monthly demand is less than 180 kW of demand for 3 consecutive months.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Three Phase - 208, 480, 4,160, 13,800 Volts where available.

4. **BASE RATE (Applied Monthly):**

\$650.00	per month
\$3.41	per kW
\$0.00514	per kWh
\$1.59	per kW
\$2.50	per kW
\$0.02600	per kWh
	-
\$0.05400	per kWh
	per kWh
	\$3.41 \$0.00514 \$1.59 \$2.50 \$0.02600

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

6. **MINIMUM CHARGE:**

The Minimum Charge under this schedule is the Customer Charge.

7. **DETERMINATION OF DEMAND:**

The demand shall be determined by suitable instruments and shall be the greater of:

(A) the highest 15-minute peak occurring during the month as measured in kilowatts or;

DATE ISSUED:

(B) 90% of the highest 15-minute peak occurring during the month as measured in kilovolt-amperes

8. **TERMS OF PAYMENT:**

Bills calculated and issued under this schedule shall be considered due when presented. All bills, not paid within 45 days from the date of billing, shall bear interest at 1.5% per month on the unpaid balance from the date thereof until the date of payment.

9. **SPECIAL CONDITIONS:**

When the Department must install special transformers or other equipment to provide service for welding loads, or other highly fluctuating loads, the Department shall have the option of measuring the kilowatts and the kilovolt-amperes required by instantaneous meters and 50% of the values so found shall be used in determining the kilowatts and kilovolt-amperes used for billing.

The Department's *Terms and Conditions for Electric Service* currently in effect are a part of the rate schedule where not inconsistent with any specific provisions hereof.

10. SPECIAL TRANSFORMER FACILITIES:

The Department normally provides and meters service at one voltage. When additional voltages are required, the Department, at its option, may provide, in addition to the primary voltage, a maximum of two (2) secondary voltages at the same location, and the customer will be metered at the primary voltage.

TRANSITION ADJUSTMENT CHARGE

When stated in the electric rate schedule, there shall be included a Transition Adjustment Charge, in addition to the other charge, representative of the purchased power charges paid by the Department.

The Transition Adjustment Charge rate per Kilowatt Hour shall be computed by utilizing the total cost of purchased power paid by the Department to its suppliers for the period, adjusted for previous period's recovery, divided by the total Kilowatt Hours of energy anticipated to be billed by the Department for the period. The Transition Adjustment Charge rate shall be calculated to the nearest thousandth of a cent (\$.00001) in the following manner:

- A Total Purchased Power cost including NEPOOL interchange charge to Accounts 555, 556, 557 and 565 (*) for the period plus the NYPA savings calculated pursuant to M.D.T.E. No. 89, all divided by:
- B Estimated kWhs to be sold during the period will be compared to:
- C Base period cost of purchased power per kWh sold, amounting to 0.0413 per kWh sold minus
- D The Generation Charge in effect at the time.

The difference between the base cost and the annual cost per kWh estimated to be sold will be applied in the billing period. The Transition Adjustment Charge will be calculated as follows:

TAC = [A/B] - [C+D]

This calculation will normally be made on a quarterly basis and a single Transition Adjustment Charge billed for the entire quarter, although the Department may change the Transition Adjustment Charge more frequently if such changes are required.

(*) An adjustment to the purchased power cost shall be made to reflect the difference between estimated and actual purchased power costs and kWh sold in the prior period in order to recover or credit any under collection or over collection of purchased power charges.

DATE ISSUED:

NYPA HYDROPOWER CREDIT

1. **AVAILABILITY:**

Residential customers will receive a credit equal to the number of kilowatt-hours billed during the period multiplied by the NYPA Hydropower Credit Rate determined as follows:

	<u>(GC – (NC/NK)) * NK</u>
NYPA =	RK

Where

NYPA	is the NYPA Hydropower Credit Rate for the period;
GC	is the Generation Charge in effect for the period;
NC	is the forecast total cost of hydropower from the New York Power Authority for the period;
NK	is the forecast total kilowatt-hours of power purchased from the New York Power Authority for the period;
RK	is the estimated number of residential kilowatt-hours to which the NYPA Hydropower Credit will be applied for the period.

This calculation will normally be made on a quarterly basis and a single NYPA Hydropower Credit billed for the entire quarter, although the Department may change the NYPA Hydropower Credit more frequently if such a change is required.

Adjustments shall be made to reflect differences between estimated and actual hydropower costs and residential kWh sold in the prior period in order to recover or credit any under collection or over collection of hydropower savings.

GENERAL SERVICE DEMAND SCHEDULE GSD

1. AVAILABLE:

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to the entire service requirement for electricity at a single metering location of any customer subject to the provisions of this section. A customer will be served under this rate if the customer's average monthly usage exceeds 10,000 kWh, but average monthly billing demand does not exceed 200 kW. A customer may be transferred from this rate if the customer's 12-month average monthly usage for 3 consecutive months is (a) less than 8,000 kWh/month, or (b) greater than 200 kW of demand.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Three-Phase power at 208, 480 Volts.

4. **BASE RATE (Applied Monthly):**

Delivery Services		
Customer Charge	\$40.00	per month
Distribution Demand Charge	\$4.61	per kW
Distribution Energy Charge	\$0.01649	per kWh
Transmission Demand Charge	\$1.82	per kW
Transition Energy Charge	\$0.03500	per kWh
Supplier Services		
Generation Charge	\$0.05400	per kWh
Transition Adjustment Charge		per kWh

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

6. **MINIMUM CHARGE:**

The minimum charge under this schedule is the Customer Charge.

7. **DETERMINATION OF DEMAND:**

The demand shall be determined by suitable instruments and shall be the highest 15 minute peak occurring during the month as measured in kilowatts.

DATE ISSUED:

M.D.T.E. No.90 Page 2 of 2

8. **TERMS OF PAYMENT:**

Bills calculated and issued under this schedule shall be considered due when presented. All bills, not paid within 45 days from the date of billing, shall bear interest at 1.5% per month on the unpaid balance from the date thereof until the date of payment.

9. **SPECIAL CONDITIONS:**

When the Department must install special transformers or other equipment to provide service for welding loads, or other highly fluctuating loads, the Department shall have the option of measuring the kilowatts and the kilovolt-amperes required by instantaneous meters and 50% of the values so found shall be used in determining the kilowatts and kilovolt-amperes used for billing.

The Department's *Terms and Conditions for Electric Service* currently in effect are a part of the rate schedule where not inconsistent with any specific provisions hereof.

10. SPECIAL TRANSFORMER FACILITIES:

The Department normally provides and meters service at one voltage. When additional voltages are required, the Department, at its option, may provide, in addition to the primary voltage, a maximum of two (2) secondary voltages at the same location, and the customer will be metered at the primary voltage.

DATE ISSUED:

SECURITY LIGHTING

1. **AVAILABLE:**

In all areas served by the South Hadley Electric Light Department.

2. **APPLICABILITY**:

This rate is applicable for general area lighting on Private Property only.

3. **BASE RATE (Applied Monthly):**

Fixture Type	Lumens	kWh	Monthly Rate	
Mercury Vapor				
175 Watt	7,950	71	\$11.40	
*250 Watt	11,200	99	\$15.80	
*400 Watt	21,000	157	\$20.60	
<u>Sodium Vapor</u>				
70 Watt	6,400	35	\$ 8.50	
150 Watt	16,000	67	\$13.50	
250 Watt	27,500	108	\$20.30	
400 Watt	50,000	166	\$31.60	

* No additional new lights of these sizes and types will be installed. These sizes and types will be replaced with similar light of sodium vapor upon failure or request.

4. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

5. **TERMS OF PAYMENT:**

Bills calculated and issued under this schedule are considered due when presented.

6. **SPECIAL CONDITIONS:**

Above rates include: Conventional type mercury or sodium vapor luminaire, map, a photoelectric control (dusk to dawn) and maintenance.

Above rates do not include: Pole(s), wire, underground supply, lighting fixture of the customer's choice, or control switch.

DATE ISSUED:

TEMPRORARY GENERAL SERVICE <u>SCHEDULE T-1</u>

1. AVAILABLE:

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to the entire service requirement for electricity at a single metering location of any customer, on a temporary basis, subject to the provisions of this section. Service under this rate schedule is available for the construction of buildings or structures and any location not attached to a permanent building or structure.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Single Phase - 120, 208, 240 Volts

4. **BASE RATE (Applied Monthly):**

Delivery Services	
Customer Charge	\$25.00 per month
Distribution Charge	\$0.02054 per kWh
Transmission Charge	\$0.00451 per kWh
Transition Charge	\$0.05720 per kWh
Supplier Services	
Generation Charge	\$0.0594 per kWh
Transition Adjustment Charge	per kWh

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No. 88 in effect at time of billing.

6. **MINIMUM CHARGE:**

The minimum charge under this schedule is the Customer Charge, plus the following charge, if applicable.

A charge of \$1.00 per installed kVA transformer capacity per billing period shall be made for each kVA in excess of five (5) kVA that is required by the Customer. At the option of the Department, a demand type meter may be employed to measure this requirement.

DATE ISSUED:

M.D.T.E. No. 92 Cancels M.D.P.U. No. 82 Page 2 of 2

7. **INSTALLATION CHARGE:**

A fee of \$90.00 will apply to all temporary service installations not requiring temporary pole(s) or other supporting appurtenances. When requested, the Department will install and later remove a temporary pole and supporting appurtenances for use by the Customer as a temporary service structure for a total installation fee of \$150.00. All installation fees shall be payable in advance.

8. TERMS OF PAYMENT:

Bills calculated and issued under this schedule shall be considered due when presented. All bills, not paid within 45 days from the date of billing, shall bear interest at 1.5% per month on the unpaid balance from the date thereof until the date of payment.

9. **SPECIAL CONDITIONS:**

The Department's *Terms and Conditions for Electric Service* currently in effect area a part of this rate schedule, where not inconsistent with any specific provision thereof.

DATE ISSUED:

RESIDENTIAL HEATING AND COOLING SCHEDULE RH

1. **AVAILABLE:**

In all areas served by the South Hadley Electric Light Department. No energy to be resold.

2. **APPLICABILITY:**

This rate is applicable to single and multiple occupancy residential customers with permanently installed electric comfort heating, having no other source of comfort heating available. This rate will include the customer's entire requirement of electricity as measured by one meter.

3. CHARACTER OF SERVICE:

A.C.; 60 Hertz; Single Phase - 120, 208, 240 Volts

4. **BASE RATE (Applied Monthly):**

Delivery Services		
Customer Charge	\$2.90	per month
Distribution Charge	\$0.02990	per kWh
Transmission Charge	\$0.00720	per kWh
Transition Charge	\$0.04020	per kWh
Supplier Services		
Generation Charge: December - April		
First 800 kWh	\$0.04400	per kWh
Over 800 kWh	\$0.02800	per kWh
Generation Charge: May – November		
First 800 kWh	\$0.05000	per kWh
Over 800 kWh	\$0.06000	per kWh

Seasonal Generation Charge shall be applied based on the month in which the bill is issued.

5. TRANSITION ADJUSTMENT CHARGE:

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the Transition Adjustment Charge M.D.T.E. No.88 in effect at time of billing.

M.D.T.E. No. 93 Cancels M.D.T.E. No. 84 Page 2 of 2

6. NYPA HYDROPOWER CREDIT

On all consumption there shall be an adjustment (charge or credit) due to the cost of power as provided in the NYPA Hydropower Credit M.D.T.E. No. 89 in effect at time of billing.

7. **MINIMUM CHARGE:**

The Minimum Charge under this schedule is the Customer Charge plus the following charge, if applicable.

A charge of \$1.00 per installed kVA transformer capacity per billing period shall be made for each kVA in excess of 5 kVA that is required by the customer. At the option of the Department, a demand type meter may be employed to measure this requirement.

8. **TERMS OF PAYMENT**:

Bills calculated and issued under this schedule shall be considered due when presented. The bill calculated will be subject to a 10% discount on the <u>Delivery Services</u> for payment prior to the expiration of the Discount Period, which shall extend 14 Calendar days from Date of Billing. The discount is not applicable to <u>Supplier Services</u> or to the Transition Adjustment Charge. The Minimum Charge, as defined under this schedule, shall be applicable at all times.

9. **SPECIAL CONDITIONS;**

The Department's *Terms and Conditions for Electric Service* currently in effect are a part of this rate schedule, where not inconsistent with any specific provision thereof.

ECONOMIC DEVELOPMENT RIDER

1. AVAILABLE:

The rider is available and applicable to the total load of a new customer or the incremental load of an expansion customer eligible to receive service under the SHELD Large General Service Schedule LGS.

2. QUALIFICATIONS:

The customer must qualify as either a new or expansion customer and:

- 1. Demonstrate to SHELD's satisfaction that it has an economically viable opportunity to locate or expand outside the Department's service area.
- 2. Demonstrate to SHELD's satisfaction that the discounts provided by this Rider, either alone *or* in conjunction with concessions from the State and/or Town of South Hadley, are sufficient to cause the customer to locate or add the incremental load within the Department's service area.
- 3. In the case of new customers, create a minimum of 12 jobs.
- 4. Require an average energy level of at least 150,000 kWh per month and, in the case of an expansion customer, increase load by at least 10% of the demand level established in the base period.

3. DEFINITIONS:

- 1. A new customer is a future consumer that has not been a customer of SHELD in any of the past 12 months preceding application for service under this rider. An existing facility will not be considered a new customer's location unless the facility has been vacant for a period of 2 years.
- 2. An expansion customer is a current LGS service recipient that has received full requirements from SHELD in the past 12 months.
- 3. The incremental load of a new customer is the total load. The incremental load of an expansion customer is the portion of the customer's total load, in kWh, that exceeds the customer's total load during the base period.
- 4. The base period is the twelve-month period immediately preceding the month in which an expansion customer becomes eligible for billing under this rider, or a 12-month period that SHELD determines reflects the customer's base level of usage.

4. CONDITIONS:

- 1. The customer shall purchase its total electric requirements from SHELD.
- 2. The customer must demonstrate to SHELD's satisfaction that it brings a benefit to the Town of South Hadley via increased employment, taxes, etc.
- 3. The expansion customer's electric energy (kWh) usage for each month must exceed by at least 10%, the energy usage in the comparable month of the base period.

DATE ISSUED: December 16, 2014 4. The Department will remove an expansion customer from the rider if, in 3 consecutive months, its kilowatt-hour energy usage is less than 10% greater than its energy usage in the corresponding months of the base period.

5. BASE MONTHLY CHARGE:

- 1. The customer's monthly demand, energy and customer charges shall be determined in accordance with the LGS rate schedule.
- 2. The customer will be billed a Transition Adjustment Charge as it applies to all other customers.

6. MONTHLY DISCOUNT:

The discount percentage will be applied to the customer's total bill for the services provided under the LGS schedule as follows:

Year 1 - 20%, Year 2 - 15%, Year 3 - 10%, Year 4 - 5%, Year 5 - 0%

7. SECURITY DEPOSIT / PAYMENT OPTION:

In lieu of the customary security deposit, customers will be allowed to enter into an ACH Agreement whereby amounts due for electric service are deducted directly from your bank account at the time of billing. The Department may discontinue its supply and remove its property from the customers' premises should such ACH payment fail to occur.

8. TERMS OF AGREEMENT:

- 1. The Rider Discount Period is 4 years, with a contract commitment of 5 years.
- 2. If the customer terminates service or reduces electric load below the minimum requirements before the completion of 5 years, SHELD has a right to recover the discounted amounts.

Service is governed by the Terms and Conditions of SHELD.
